

PRISM 3-D

TECHNICAL SPECIFICATION

The Prism 3D Fence System is the industry standard for mesh panel fencing, and is now manufactured in the United States, providing a high value, attractive security fence solution.

The system consists of high-quality panels available in various heights, secured to high-strength steel posts. Swing, sliding and cantilever gates are available for the Prism 3D Fence System.

PRISM 3-D

RAW MATERIALS

Panels The panels have a width of 8".2' and heights ranging from 4' to 8'. The panels have vertical barbs of 1.2" on one side and are reversible (barbs at top or at bottom).
Mesh opening sizes are 6" x 2" (152 x 51mm) for the beam sections. The heavy wires guarantee strength and rigidity.

Posts The panels are attached with high strength aluminum brackets to the front side of galvanized steel square tubular posts 2" x 2" (51 x 51mm).

SPECIFICATIONS

Mesh openings 6" x 2" (152 x 51mm)

Panel width ft. 8'2" (2499mm)

Panel height | 4' (1219mm) 2 bends | 3 brackets per post
Brackets per | 5' (1524mm) 3 bends | 4 brackets per post
post | 6' (1829mm) 4 bends | 5 brackets per post
8' (2438mm) 4 bends | 7 brackets per post

OPTIONS

Gates The Prism 3D Fence System is compatible with swing, slide and cantilever gates.

Colors Standard available in black; custom colors are available.

COATING

Powder coating The welded mesh panels are manufactured using galvanized steel wire, coated with Guardiar's exclusive Architectural Grade Powder Coat. This coating is super-durable and environmentally sound. Our powder coating provides the industry's highest weatherability and Gloss Retention in UV exposure – up to 5 times longer than competitors' powder coatings.

WARRANTY

Powder coating The Prism 3-D Fence System is produced using the highest quality material and equipment – and is backed by our 10-year Manufacturer's Warranty.
