

Securifor® 4D

FORCED ENTRY TESTED WELDED MESH PANEL

Product detail

- ASTM F2781-10 tested for forced entry and ballistic resistance
- Deters and delays attacks
- 750% more rigidity
- 10 year warranty
- Superior anti-corrosion coatings

BENEFITS

Extreme rigidity

Securifor® 4D's alternating wire configuration is tested* and proven to be over 750% more rigid than traditional flat panels. This reduces engineering requirements or the need for rails to stabilize the panel.

Adequate delay time

Forced entry tests conducted to *ASTM standards produced a Low Threat attack** of nearly 8 minutes before the panel is breached.

Superior corrosion resistance

Securifor® 4D can be hot dipped galvanized or coated with a super-durable architectural grade powder coating.

Long Service Life

Surveillance systems have unobstructed visibility of activity behind the fence. The added rigidity reduces false alarms and reliability and contributes to a detection system's accuracy and reliability.

* Panels tested in a horizontal orientation and subjected to a 500N force

** Threat attack levels as defined by ASTM F2781 Standard

Security level

Applications

Functionalities

Panels

Every horizontal wire alternates between the front and back of the vertical wires delivering increased rigidity. The panels are fixed using specific full length cover plates and security bolts and nuts.

Posts

The posts are available in a limited range of sizes to accommodate project specifications.

Gates

The Securifor® 4D Fence System is compatible with a wide range of gate styles such as swing, v-track and cantilever gates.

Superior Coating

The Securifor® 4D panels are manufactured using galvanized steel wire, coated with Betafence's exclusive Architectural Grade Powder Coat. This coating is super-durable and environmentally sound. Our powder coating provides the industry's highest weatherability and Gloss Retention in UV exposure – up to 5 times longer than competitors' powder coatings.

Black

Warranty

The Securifor® 4D Fence System is produced using the highest quality material and equipment – and is backed by our 10-year Manufacturer's Warranty.

SECURIFOR® 4D SPECIFICATIONS			
Panel Width (Nominal)	Wire gauge	Panel height	Post length
8ft or 10ft	8	8ft	11ft
8ft	8	10ft	13ft
