Alpha-Smart Lock

SECURE │ INTELLIGENT │ TRACKING │ CUSTOMIZABLE

Alpha-Smart Lock Plus is an intelligent electronic lock that can be mounted to a trailer, tanker, or container with screws or magnets. The Alpha-Smart Lock is equipped with a communication and satellite positioning module, which can be used for real-time online monitoring, remote operation, global positioning tracking, cloud platform monitoring and has full reporting capabilities. This is the ideal solution for those companies looking to enhance their supply chain visibility and eliminate traditional keyed locks or one time use security seals.

FEATURES & BENEFITS

Long Battery Life
90 Days – Assumes location reporting every hour and ten opening/locking events every day.

Global Positioning
Base Station/GPS/WIFI

User Management
Assign and manage multiple roles.

Built-in Sensors
Cutting Alert
Acceleration
Shock Vibration
Tilt Orientation
Geo in/out
(Optional)

Lock Mode
NFC / Bluetooth / Remote authorization / Keep Open

Easy to Install
Screw or Magnetic.

Weather Resistant
IP67

Cargo Tracker
Track device through WEB/APP/SMS Real-time communication.

Status Alerts
Manage alerts through WEB/APP/SMS

| Unauthorized unlocking | Acceleration Shock Vibration Tilt Orientation | Abnormal cutting alert | Unauthorized backplate opening | Geo in/out | Low Battery Alert |

■ Product information

Product model:	Alpha-Smart Lock (Intelligent Electronic Lock)	Battery :	3.7V 15000 mAh	
Body size:	190*116*44(mm)/7.5*4.6*1.7(in)	Standby duration:	Open and close ten times a day/report interval is 1 hour, and lasts for 90 days.	
Body weight:	1100(G)/2.4(lbs)			
Network:	GSM/GPRS，LTE- FDD，LTE- TDD	Working temperature:	-20℃ ~+60℃/-4°F~ +140°F	
Positioning methods:	Base station positioning, GPS, and WIFI positioning	Working humidity:	5%-95% without condensation	
Protection grade:	IP67	Charging humidity:	0℃ ~ +45℃/+32°F~ +113°F	
Charging port:	Input: DC 5V/2.0A	Steel wire standard:	304 stainless steel, steel wire diameter: 4.0mm wrapped in PVC. Turning parts inserted at both ends: 304 stainless steel.	
NFC card:	It supports up to 50 cards for binding.
